Bug ID: BR-002

Title: Search returns error when using special characters

Description:

Search functionality behaves unexpectedly when special characters are entered.

Steps to Reproduce:

1. Open Amazon Brazil homepage

2. Enter special characters (!@#$%) in search bar

3. Click search

Expected Result:

System should handle input gracefully and show no results or suggestions.

Actual Result:

Error message is displayed or page does not load correctly.

Severity: Medium

Priority: Medium

Environment: Chrome 120 / Windows 10

Status: Open
